FRONTEND DEVELOPER

Results-driven Frontend Developer skilled in building responsive, high-performance web applications using React.js and Next.js. Proficient in modern web technologies including JavaScript and dynamic API integrations, with a strong focus on creating clean, user-centric, and optimized user interfaces.

SKILLS

Frontend Development — React.js , JavaScript(ES6+) , HTML5,CSS3 , Responsive Web Design

Tools & Platforms — Git , GitHub , REST APIs Integration

Core Competencies — Problem Solving , UL/UX Design Concepts

PROJECTS

Cosmetic & skincare

- Developed a premium, production-ready E-commerce storefront with 15+ dynamic product categories and a 3- step smooth checkout workflow.
- Built dynamic product grids, category filtering, and a smooth multi-step checkout workflow with persistent state management.
- Optimized image delivery and Core Web Vitals, improving page load speed by 35% and enhancing user experience.
- **Tech Stack:** Next.js, React.js, Tailwind CSS, JavaScript (ES6+), Git.

Personal Portfolio Website

- Designed and deployed a modern, highly interactive portfolio website to present personal frontend engineering projects and technical skills.
- Created smooth layout transitions and custom animations while ensuring 100% responsiveness across all modern browsers and device form factors.
- **Tech Stack:** HTML5, CSS3, JavaScript (ES6+), GitHub Pages / Vercel.

E-Commerce Platform

- Developed a fully responsive E-commerce web application using **React.js** and context API for state management.
- Implemented dynamic product listing, advanced filtering, and a seamless persistent add-to-cart functionality.
- Optimized UI performance and asset loading, ensuring maximum responsiveness across mobile and desktop devices.
- **Tech Stack:** React.js, JavaScript, Tailwind CSS, HTML5
